The half-year consolidated financial report is a general purpose financial report which has been prepared in accordance with the requirements of the Corporations Act 2001, Accounting Standard AASB 134 *Interim Financial Reporting*, the recognition and measurement requirements of applicable AASB standards and other authoritative pronouncements of the Australian Accounting Standards Board.

The half-year report does not include full note disclosures of the type normally included in an annual financial report. As a result the half-year financial report should be read in conjunction with the 30 June 2009 Annual Financial Report and any public announcements by Boral Limited and its controlled entities during the half-year in accordance with the continuous disclosure obligations under the Corporations Act 2001.

1. ACCOUNTING POLICIES (continued)

(c) Changes in Accounting Policies

From 1 July 2009 the Group has adopted the following Standards and Interpretations. The adoption of these standards and interpretations did not have any effect on the financial position or performance of the Group.

- z AASB 8 Operating Segments
- z AASB 101 Revised Presentation of Financial Statements
- z AASB 2007-3 Amendments to Australian Financial Standards arising from AASB 8
- z AASB 2007-8 Amendments to Australian Financial Standards arising from AASB 101

The adoption of AASB 8 Operating Segments has resulted in a revision of the Groups reportable segments. AASB 8 Operating Segments requires a "management approach" under which operating segments are presented on the same basis as that used for internal reporting, and is reviewed by the chief operating decision maker being the Managing Director and CEO. Previously segments were presented by business and geographical segments determined using a risk and rewards approach. Comparatives have been restated.

AASB 101 has impacted the presentation of the Statement of Comprehensive Income and Statement of Changes in Equity. Since changes to the standard only impact on presentation there is no impact on earnings per share.

(d) Comparative Figures

Where necessary to facilitate comparison, comparative figures have been adjusted to conform with changes in presentation in the current financial year.

(e) Rounding of Amounts

The Company is an entity of a kind referred to in ASIC Class Order 98/100 and, in accordance with that Class Order, amounts in the financial report have been rounded to the nearest one hundred thousand dollars unless otherwise stated.

BORAL LIMITED AND CONTROLLED ENTITIES

11. CONTINGENT LIABILITIES

The Company has given to its bankers letters of responsibility in respect of accommodation provided from time to time by the banks to controlled entities.

A number of sites within the Group have been identified as contaminated, generally as a result of prior activities conducted at the sites, and review and appropriate implementation of clean-up requirements for these is ongoing. For sites where the requirements can be assessed, estimated clean-up costs have been expensed or provided for. For some sites, the requirements cannot be reliably assessed at this stage.

Certain entities within the Group are subject to various lawsuits and claims in the ordinary course of business.

Consistent with other companies of the size and diversity of Boral, the Group is the subject of periodic information requests, investigations and audit activity by the Australian Taxation Office (ATO) and taxation authorities in other jurisdictions in which Boral operates.

A deed was entered into at the time of the demerger which contained certain indemnities and other agreements between the Company and Origin Energy Limited (Origin) and their respective controlled entities covering the transfer of the businesses, investments, tax, other liabilities, debt and assets of the Group and some temporary shared arrangements. A number of matters have been resolved with both the Australian and United States taxation authorities which are likely to give rise to claims by the Group under the demerger deed. As the settlement resulted in a payment to the ATO, Origin is likely to rely on indemnities contained in the demerger deed.

The Group has considered all of the above claims and, where appropriate, sought independent advice and believes it holds appropriate provisions.
